PREMIUM HEALTH RESORT

WE HOTEL | WE HOSPITAL

PREMIUM HEALTH RESORT ‘THE WE’

‘THE WE’ is the nation’s first medical tourism concept resort of 5-star ‘WE HOTEL’ and ‘WE Hospital’ to the Halla Medical Foundation. You can experience a true healing trip where you can be naturally healed just by staying by using the clean forest of Mt. Halla, a natural heritage, and natural volcanic bedrock water. And please experience 'Medi-well Stay' where you can meet healthy rest in addition to health care therapy service through medical infrastructure and wellness facilities.

Healthcare Total Service for Healthy Life Beyond Simple Rest

FOREST

THE WE's forest is naturally valuable as a primeval forest where various species are well preserved. Therefore, you can have a touching and wonderful time when you walk, listening to the sound of the wind blowing off trees and mountain birdsong while encountering roe deer in the forest. If you walk through the forest with deep breathing and relaxed footsteps on rustling Jeju Scoria, you can recover and relax your tired mind and body.

1. Health Resort THE WE

2. Haeam Forest Entrance / Takes about 50 minutes

9. Dorae Forest East Entrance

MIRACLE WATER

From the Aqua Meditation Pool to receive water therapy, the swimming pool, functional pool, shower facilities and drinking water in all rooms, THE WE provide miraculous water with natural volcanic bedrock water rich in minerals that are good for the body.

FEATURES OF NATURAL VOLCANIC BEDROCK WATER

WE Hotel's water is stored in a very unusual structure of a tank in the volcanic ground layer. This form of storage can contain a variety of essential minerals from nature. In particular, carbonated water in natural bedrock has excellent taste and contains many health substances.

EFFECT OF NATURAL VOLCANIC BEDROCK WATER

Cell regeneration effect by removing fat from the skin

Antioxidant and anticancer effects of selenium

Insulin secretion stimulating effect
Triglyceride removal with vanadium and chromium
Cholesterol reduction effect

WELLNESS CENTER: FACILITIES

Wellness Center has professional hydro exercise and hydro care program using the excellent water resources. We are carrying out various outdoor programs based on Jeju Island's natural forest Dorae Forest, the beautifully formed Haeam Forest, and garden. Also, we have specialists and optimal facilities for a truly healthy life through health improvement by providing a fitness room, a mind room and a medical spa program.

MARÉE SWIMMING POOL

Indoor and outdoor pools, outdoor jacuzzi

AQUA MEDITATION POOL

A dome-shaped pool that embodies the inside of a mother

AQUA CIRCUIT

5 customizable functional pools

MIND ROOM

Effective meditation therapy to relieve tension by playing natural crystal singing bowls

FITNESS ROOM

1:1 customized training through scientific physical examination

SAUNA

Finnish sauna using natural volcanic bedrock water such as bicarbonate and vanadium

WELLNESS CENTER: PROGRAM

Wellness Center's representative aqua therapy programs include Haeam Hydro, Aqua Circuit, and Aqua Fitness. In addition, we are running the 'WE with you, Healing Forest' program, a forest outdoor program for families and couples, and the 'Irang' program for children.

Haeam Hydro

The Wellness Center's representative program, which is held at the 'Aqua Meditation Pool', helps to stabilize the mind and body, relieve tension, and relieve stress through stretching and acupressure with the body floating on the water using a floater.

WE with you, Healing Forest

It is a healing forest tour program that circulates three concepts every day: 'Forest Commentary' that tells the story of the forest at Halla Mountain, 'Forest Play' to enjoy color therapy using nature, and 'Forest Healing' for forest meditation and stretching.

Irang (KIDS Program)

It is a program based on the underwater healing program called WATSU, where I get closer to my child and the child has more trust in mom and dad.

1:1 personal training / 1:1 swimming lessons

Based on scientific tests at the medical center, we provide 1:1 customized training according to the customer's constitution.

MEDICAL SPA CENTER

The 'Medical Spa Center', the first in Korea to converge medical and spa, introduces a total beauty program that considers health beyond skin beauty. Hydro program using natural volcanic bedrock water and spa therapists recommend customized programs in consideration of the customer's physical and mental condition and provide true relaxation.

- **Skin Care Spa** Various nutrition supply and contour massage to revitalize skin cells. Total anti-aging face program
- **Joint and Pain Management** Manipulative therapy to relieve joint waste, spinal and pelvic imbalance

HEALTH PROMOTION CENTER

Good health requires integrated and holistic management for physical, mental and mental health. THE WE designs a '1:1 customized' program optimized for customers through consultation. Designed wellness programs synergize with natural energies (water and forest) to create a truly relaxing retreat.

Health care tailored service optimized for individuals

– Provides integrated health care that harmoniously manages body and mind

- Coaching to maintain a healthy lifestyle
- Continuous health care when revisiting

- **Fill out questionnaire** ; Personal history, family history, lifestyle (diet, exercise, drinking, smoking, stress)
- **1:1 consultation with a specialist**

- **photon therapy (blood purification therapy)**: Immune function activation, blood circulation help
- **Whole body hyperthermia therapy**: By raising the body temperature to 39~41 degrees, blood circulation and metabolism are enhanced, thereby activating immune cells and killing cancer cells.
- **Intravenous nutrition therapy**: Effective in improving nutritional imbalance, chronic fatigue, muscle pain, skin aging, and abdominal obesity by supplying nutrients through intravenous injection

- **Heavy metal-mineral test**: Analyze and test heavy metals and minerals using blood or hair
- **Food Allergy Test**: 220 types of allergy tests that are difficult in general allergy tests
- **Organic acid test**: Test the level of metabolism (nutrient factors, cell regulators, toxins, etc.)
- **Free radical-antioxidant power test**: Measure antioxidant power, the ability to remove free radicals that cause disease
- **Infrared thermography test**: pain and blood flow disorder evaluation by measuring minute changes in body temperature
- **Circulatory Inflammation Test**: Evaluates inflammation as a test that is more useful than cholesterol
- **Disease-associated genomic test**: individual disease risk test
- **Smart cancer screening**: Early diagnosis of 6 major cancers (lung cancer, liver cancer, stomach cancer, colorectal cancer, breast cancer, prostate cancer)
- **Blood test (80 types)**: to evaluate the health status of organs (liver, pancreas, kidney, thyroid, bone marrow, blood vessels)
